This is how it was explained to us from the production company and many of you have met with them, as well. The DDA did an informal door to door survey yesterday and the feedback was overwhelmingly positive that this was a good thing for our community. Although this is an exciting opportunity, I think it is still important that we have the conversation to thoroughly vet this process and any disruptions to services it may bring so that we all know what we are signing up for. Although short notice, the City of Casper has scheduled an open house at City Hall, in council chambers, to meet with the production company representative and hear more about the plan and get answers to any questions we may have. I also believe it is important that we get those answers and schedules in writing, so we can hold the production company accountable.

If able, please join us at City Hall on Friday, May 27th at 8:30 AM. Your input is critical in the decision making process for city leadership. Again, I understand it is very short notice but please come and participate.

If you are unable to attend but would like your voice to be heard, please send any written comment to admin@downtowncasper.com
